

A new publication from the
Kimberley Society

Kimberley History
People, Exploration and Development

Edited and compiled by
Cathie Clement, Jeffrey Gresham and Hamish McGlashan

Western Australia's Kimberley region embraces one of the world's last great wilderness areas. The region has a fascinating indigenous and early European history. Archaeological evidence indicates that Aboriginal occupation of the Kimberley began between 53 000 and 60 000 years ago. Known European exploration of the Kimberley coastline commenced in 1644 and land based exploration in 1837.

Containing 15 papers by different authors, this lavishly illustrated book is the proceedings of the Kimberley Society Kimberley History Seminar held at the University of Western Australia in 2010.
